Darwin,

I'd like to echo the comments provided by the North State Super Region and AMBAG. I believe the comments provided capture the major concerns by the rural regions.

As you know, the Butte region is still recovering from the Paradise Camp Fire. Emergency evacuation whether it be fire or flood like the Oroville Dam Crisis, capacity projects are needed and not looked favorably in the CAPTI

We don't move the needle when it comes to VMT but recognize we need to do what we can to help with the effort. We ask for flexibility and recognition that rural needs and solutions can be very different from our larger urbanized neighbors.

Thank you.
