[Report Suspicious](#)

Dear SB125 task force members and staff,

The report of the State Transit Transformation Task Force includes numerous recommendations that are intended to be implemented via administrative actions.

It would be valuable to have an implementation section or appendix that identified the department or process where the implementation actions are slated to occur, and any existing advisory body processes that would review the implementation. This would be very helpful for advocacy organizations and members of the public to be able to follow along and track how the recommendations are being implemented and provide relevant feedback in the implementation process.

Thank you for your consideration,

- Adina
