

**Devil's Slide Ribbon-Cutting  
Business, Transportation & Housing Agency  
Secretary Brian Kelly  
11:30 a.m. March 25, 2013  
Montara, California  
Remarks As Prepared**

The State of California appreciates our leaders in Congress and the state Legislature, and all our local and federal partners. Without your support, this project would not have been possible.

Devil's Slide was an enormous undertaking in difficult terrain.

Ingenuity, strong will, and perseverance combined to get this project done.

These new tunnels are state-of-the-art structures that blend well into these beautiful, natural surroundings along Highway 1.

Thanks to the hard work of the men and women who dedicated themselves to this project; motorists and emergency workers will now have a safer journey from this day forward. Congratulations everyone.
